Context

Are you passionate about creating intuitive digital experiences and applying your design skills to solve healthcare challenges? If yes, this internship opportunity is for you!

We are seeking a motivated and creative UX/UI intern to join our research and innovation team for a 6-month period.

Working closely with clinicians, researchers, and developers, you will contribute to the design, prototyping, and testing of innovative digital health solutions. Your work will focus on the conception and development of user-friendly mobile and web applications aimed at improving user experience and engagement in the healthcare domain.

Goals & tasks

During your internship, you will participate in all stages of the design process: user research and needs analysis, prototyping, usability testing, and refinement of interfaces.

- Final year engineering or master's student in UX/UI design, human-computer interaction, digital design, or a related field.
 - Hands-on experience with design tools.
 - Ability to design and prototype mobile and web applications.
 - Strong understanding of user-centered design principles and usability testing methods.
 - Interest in healthcare, e-health, or digital solutions for medicine.
 - Ability to work independently and collaboratively in a multidisciplinary team.
 - Excellent communication and pitching capacity.
